Revision Date: 02-Oct-2013

attention/advice.

Skin Contact Take off contaminated clothing. Wash with soap and water. If symptoms persist, call a

physician. Wash contaminated clothing before reuse.

**Inhalation** Remove to fresh air. If symptoms persist, call a physician. If breathing is difficult, give

oxygen. Seek immediate medical attention/advice.

**Ingestion** Rinse mouth. Seek medical attention. If drowsy or unconscious, do not give anything by

mouth; place individual on the left side with head down. Do not induce vomiting.

### Most important symptoms and effects

**Symptoms** Exposed individuals may experience eye tearing, redness and discomfort. Prolonged or

repeated skin contact may result in dermatitis (red, dry skin). May cause nose and throat irritation, with possible central nervous system effects. Fatigue and weakness. May cause drowsiness or dizziness. Long term overexposure may cause liver and kidney damage.

### Indication of any immediate medical attention and special treatment needed

Notes to Physician Treat symptomatically. Individuals with chronic respiratory, skin, kidney, or liver disorders

may be at increased risk from exposure.
