

PRODUCT DATA SHEET

A-5
YELLOW SEALANT

DESCRIPTION

A-5 is an all purpose yellow soft-set, non-seizing thread sealant that produces a leak proof seal on all types of metal and plastic threaded connections. A-5 will not harden or dry out over time and remains flexible for easy disassembly. It is non-toxic, is easy to clean-up and will stick to hot oily threads.

APPLICATION

A-5 can be applied to all types of pipe threads including steel, brass, iron and PVC, ABS and CPVC plastic. A-5 is recommend for use on water, steam, air, natural gas, refrigerants and ammonia service. It is not for use on oxygen service.

A-5 has a temperature range from -50F to 400F; and pressure range up to 3,000 psi (435 kPa) for gas and up to 6,000 psi (870 kPa) for liquid.

Use A-5 as supplied in its original container. Stir well before using. Brush liberally onto make threads. Make up joint in normal manner. A brush cap is included in each can.
